

Education & Credential Verification

Hire the Right Candidates With Reliable, Worldwide Verifications

Education Verification

CVs showcase skills, experience and why people are right for the job. However a survey by YouGov found 1 in 10 UK applicants lie on their CV, with education and qualifications the most likely embellishments. Education verifications confirm disclosed degree(s) and dates of attendance when available.

Credential verifications validate a candidate's disclosed professional credentials or licenses and date(s) of completion.

How It Works

We can set you up with a business account in < 1 hr. Then all you do is enter the candidate's name, email and contact number to initiate the application check. The candidate then submits their details and Certn Credence verify the information against automated data sources. When needed, we also make direct contact with institutions.

About 1/3 of applicants lie on their resumes.
Of those:

44% lied about their education

27% lied about their professional credentials

With the right checks, you can catch these inaccuracies AND:

- ◆ Comply with industry regulations
- ◆ Verify international experience
- ◆ Mitigate risk and protect your company reputation

Comprehensive Reports:

-  Thorough reports within required timelines
-  National and international verifications
-  Worldwide support for you and your candidates
-  An efficient, straightforward process with diligent follow-up

Levels of Education You Can Verify:
